Experience Designer & Developer / jettliwang.github.io

US Citizen / Brooklyn, NY / jettliwang@gmail.com

Education

BA in **Economics** & 21 course credits in advanced **Computer Science** / GPA 3.57 /

University of Illinois at Urbana-Champaign / Aug 14-May 18 / Champaign, IL

UX Design Immersive / General Assembly / Jun-Aug 16 / San Francisco, CA

Learned fundamental theories, techniques, and tools of user experience design and user research through a variety of individual, team and client facing projects.

Professional Experience

User Experience Design Intern / Huawei Mobile Design / Jun-Aug 17 / Shanghai, China

- Strategized and participated in brainstorming sessions on high-level feature design of Huawei's future mobile Operating System introducing AI assistance.
- Significantly simplified development workflow by designing prototypes for complex interactions using Flinto and Origami Studio.
- Conducted 4 quantitative and qualitative data collection tasks. Reduced time cost of collection methods by designing efficient workflows and using appropriate methods.

UX Consultant / HoneIt / Aug 16 / San Francisco, CA

- Identified project scope by leveraging client needs and team skillsets.
- Conducted user interviews and usability tests. Synthesized results using affinity diagramming and created redesign based on feedback.
- Delivered annotated usability reports and design documentation in Omnigraffle. Left sustainable post-project impact by communicating generalizable design principles and key decisions.

Software Engineer Intern / EMC Center of Excellence Lab / Jun-Aug 15 / Beijing, China

- Developed experimental product testing environment using Docker and Shell Scripting.

Computer Engineer Intern / Lenovo R&D Lab / Jun-Aug 14 / Beijing, China

- Developed CPU & memory simulation model using C++.

Leadership & Volunteering

Student Leader & Staff Assistant / Humanistic Buddhism Monastic Life Program / Jul 18

- Served as lead translator and interpreter for lectures and logistical communications. Utilized communication skills to bridge potential informational and cultural gaps.
- Lead team to produce student interview articles. Delivered 12 digital articles under limited internet and full monastic schedule in 2 weeks.

Webmaster & Tech Officer / UIUC Chinese Student & Scholar Association / Aug 15-May 18

- Renovated online presence by redesigning website twice over 2 years. Produced visual and informational content, and programmed site with Bootstrap, SaSS and jQuery. Prepared thorough documentation on Github.
- Planned and led 3 workshop series on introductory web development, Java & C++.

Skills

Sketch / Photoshop / Origami Studio / Flinto / Invision

HTML CSS / BootstrapCSS / SaSS / jQuery / ReactJS / Responsive Design

Research Synthesis / Systems Design / Project Planning & Development / Fluent Mandarin
